PROFESSIONAL SUMMARY

Motivated BCA graduate (2026) with hands on experience in full stack web development using MERN and PERN technologies. Skilled in building responsive web applications, REST APIs, authentication systems, database integration, and modern frontend interfaces. Passionate about solving real world problems through code and eager to begin a career as a Software Developer while continuously learning new technologies.

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, C, C++, SQL, HTML5, CSS3
Frontend Development: React.js, Vite, Tailwind CSS
Backend Development: Node.js, Express.js, Flask , RESTful APIs
Database: MongoDB, PostgreSQL, Prisma ORM
Tools & Technologies: Git, GitHub, Inngest, Power BI, MS Excel

PROJECTS

1. REXCORE – Project Management System **June 2026**
Tech Stack: React.js, Node.js, Express.js, PostgreSQL, Prisma ORM, Inngest, Nodemailer

- Developed a full-stack PERN application for project and workspace management.
- Implemented workspace management, project creation, and task tracking features.
- Built team collaboration functionality with comments and secure authentication.
- Designed RESTful APIs for core backend functionality.
- Integrated email notifications using Nodemailer and background jobs with Inngest.

2. KNOWVA – Skill Exchange Platform **March 2026**
Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Built a full-stack learner and mentor platform for exchanging skills.
- Developed user profiles, skill listings, and search functionality.
- Designed a responsive UI using React.js and Tailwind CSS.
- Built RESTful APIs and integrated MongoDB for data management.

EXPERIENCE

Rooman Technologies Pvt. Ltd. | Intern – Full Stack Web Development
Bengaluru, India | 30 Days

- Learned and applied HTML, CSS, SQL, Python, and Flask in a full-stack development environment.
- Built a mini project – Restaurant Booking Platform as part of the internship.
- Developed responsive web pages using HTML and CSS.
- Built backend functionality using Python Flask and queried relational databases using SQL.
- Worked on frontend-backend integration and gained practical experience in project deployment concepts.
